

ZONING PLAN PROTESTED

Riverdale Property Owners Oppose Proposed Change to Zone G

The Riverdale-Spuyten Duyvil Property Owners Association announced yesterday that it had addressed to Lawrence M. Orton, a member of the City Planning Commission, a protest against a proceeding pending before the commission to determine the advisability of changing the classification of Riverdale property from its present status of Zone F to Zone G. The communication said the proposed change was being advocated by a minority of the owners in the area. It also said the proceeding had been initiated by the commission itself and suggested to Mr. Orton that he refrain from participating in the hearing scheduled for March 22.
